Gripping mystery adventure for PC, Android™ and iOS® out now!

“Mystery of Neuschwanstein” out now

Munich, February 18th 2015 – Are you ready for an exciting adventure featuring an unsolved murder and a murky network of con-spiracies? Then Mystery of Neuschwanstein by Chimera Entertainment is just the right game for you! First announced in January 2014, the gripping casual adventure is now available from German publisher astragon Software via digital download for PC, Android™ tablets and iPad®.

Follow Sarah Hamilton, investigative reporter for the magazine “Facts & Fancy”, to the world famous Neuschwanstein Castle, popular tourist attraction and last home of the doomed fairy tale king Ludwig II of Bavaria. Together with her newfound acquaintance, the criminologist Professor Wolfgang Adler, she will undertake a dangerous quest for the truth behind one of Germany’s most high-profile cold cases:
Since the mysterious death of king Ludwig II. in 1886 by drowning in the shallows of Lake Starnberg alongside his psychiatrist, doctor Bernhard von Gudden, various rumors have been circulating around Ludwig’s last days: Was the king indeed insane and his death a murder-suicide as the official sources claim? Or was he killed by an unknown foe? And who profited from his Majesty’s untimely demise?

Countless challenging puzzles, brain teasers and hidden object scenes await the virtual detective on his search for the truth behind the 128 year old crime, which will lead him through beautiful hand-drawn locations both within the famous castle and its breathtaking surroundings.

High quality voiceovers and an atmospheric soundtrack together with a fascinating mystery story based on true events will keep players glued to their screens until they will have cracked this spell-binding secret of Neuschwanstein Castle.
Mystery of Neuschwanstein, which has been awarded the support of the Games Awards Committee of the FilmFernsehFonds Bayern (FFF Bayern), is available now for PC via download on platforms such as Steam® and on mobile devices such as Android™ tablets via Google Play as well as iPad® via iTunes®.
